Around So Fla
by Miami Mike, Publisher

The only thing I'm gonna say right now about the presidential elections is that there is nobody running that should be president. You

would think that with approximately 150 million people in the US between 35 & 79 years old (counting everyone) there must be someone who could lead this country... who shouldn't be in prison, or a loony bin anyway. As it stands right now... we're all screwed no matter which idiot or criminal wins. I can't wait to see how this fiasco turns out...

But down here in SoFla there are lots of events to keep our minds off the political insanity. The main event for me was getting a deep epidural shot in my lower back right after I went to print last month. I lucked out with my HMO who actually had me go to a doctor that knew what the hell he was doing for a change. After dragging myself into the Coral Springs Surgical Center at 6:30AM, I walked out at 9AM without a cane. And after getting waited on for the rest of the day (thanks Sharon) I got up the next morning pain free, went to the office and sat on my motorcycle for the first time in almost 18 months... and on March 13th, we took a bike ride to our first monthly event which was the USMV MC Party at Mickey's. It was terrific getting back on the bike after so long. The doctor told me that this type of shot can last a long time, anywhere from a few months to in some instances years. I'll be happy with years... I'm not greedy.

So as we rode up to Mickey's a ton of bikes were lined up Andrews for a few hundred feet. There was a great crowd for this party and the weather held out for most of the day except for a real quick shower that lasted all of 10 minutes then it was back to party time. The pig looked great, Axman loved it. The band members were Allen's friends from NY. The band leader was Max Dubose and I guess the band was

The month of February ended with Hermudad MC's Spring Annual which was held at the Booby Trap in Doral on 02/28.

Obviously, this event was not to be missed. Apparently, a lot of other bikers had the same thought too. Who doesn't like titties and beer? I arrived early in order to take the group photo, but somehow this did not pan out as planned. Various clubs rode in early which kept the Hermudad MC members busy for quite some time. It was another hot day and the majority of the attendees stayed inside to enjoy the air conditioned environment while watching the local talent displaying their skills on the poles. On behalf of Bigote and his members I want

to thank everybody who came out.

The following Friday (03/04) my wife and I met Jerry, Gloria, Mike and Denise at the Shell gas station on Sunrise Boulevard next the Sawgrass Express way. Vicky and I were very excited that we were all going to Daytona for Bike Week. Our friends Debbie and Kevin from Jacksonville were staying with us at the same hotel (Best Western in Ormond Beach). In addition to that our German friends, Helge and Bianca had two more couples accompanying them, Thomas & Uta, Hans-Peter and Benita. We said it was a German invasion and referred to them as "Them Germans". They had rented their

Chief Director:

SFPC Toys in the Sun Run

In Memory of Bob Amchir

First, my condolences to the Fly~In Wheels MC and the family of Bob Hellowell, aka "FPL Bob", who passed away on March 22nd. Bob was a mainstay in the South Florida community for many years, as well as a past member of the Wings of Gold MC, over 15 years ago. RIP... you will be missed by many.

Now I'm not known for writing about political views in my column, for I have many and am outspoken on the topic when it comes to our country. But there are two interesting facts that I would like to share with you and I will

keep it short... We are advised not to judge all Muslims by the actions of a few lunatics but we are encouraged to judge all gun owners by the actions of a few lunatics. It seems we constantly hear about how Social Security is going to run out of money. How come we never hear about welfare running out of money? What's interesting is the first group worked for their money, but the second group did not! Profound, isn't it... just something to think about!

There is a unique festival called Rockfest 80's, celebrating the nostalgia and history of the greatest decade in rock music. Concert goers will experience rock music's biggest hits from over 20 legendary artists in a distinctive atmosphere unlike many others. Kick back and reminisce as the likes of Bret Michaels of Poison, Paul Rodgers of Bad Company, Ace Frehley of KISS, plus 20 more legendary performers take the stage and take you back to the 80's over the course of 2 days on April 2nd & 3rd. South Florida finally gets its own rock festival at Markham Park in Sunrise, home to our own SFPC Toys in the Sun Run event. In addition to two stages, there will be interactive entertainment, including an 80's dance party, vendor village, a vintage car show and more. The promoter has set up a special promo code exclusively for all motorcycle riders and

MCs. Promo codes are food for 25% off all tickets, single day or weekend passes. To get the discount, tickets must be purchased directly through

www.rockfestconcerts.com.

Also, discounted VIP parking is available for motorcycles right next to the box office at the front gate to the festival, so you park and walk right in! Normal parking is \$15 and \$10 for bikes, but mention ROCK25 and you will get into the VIP motorcycle lot at the front gate for only \$5. The promoters putting on this event said they would like to be a part of this year's Toy Run in

And last, the States MC Annual 50th Anniversary will be held on Sunday, April 3 at their clubhouse starting at noon with entertainment by Soulicide. Their full page centerfold event flyer was in last month's issue so you should be well aware of this huge event.

Good News

By Doug Scofield

DougWOTR@gmail.com

With bike week behind us and a wet hot summer ahead, I pray that you take the time to go over your bike and make sure all is tight and all lights and turn signals are in good working condition and that the rubber is ready for rain filled roads.

We celebrated Easter Sunday March 27th this year; a little earlier than usual. As I contemplate what this time means to us all, I realize that there are those that don't think Jesus ever existed and therefore there is no God. There are those who believe he did walk this earth but was a prophet and no more. Then there are those that

look around and see His creation and are in awe!

We that have read the bible know that it is the word of God. The bible was written over several hundred years by many different men and still it is uniform in what it says. We are also blessed to have the accounts of three eye witnesses that walked with Jesus... Matthew, Mark and John. We also have the Gospel according to Luke. He states in the first few verses that he studied other writings and from interviewing eyewitnesses which probably included Jesus' mother, Mary. Luke 1:1-4 Many have undertaken to draw up an account of the things that have been fulfilled among us, just as they were handed down to us by those who from the first were eyewitnesses and servants of the word. Therefore, since I myself have carefully investigated everything from the beginning, it

seemed good also to me to write an orderly account for you, most excellent Theophilus, so that you may know the certainty of the things you have been taught.

The Apostle John declares that Jesus was with God from the beginning and He came to earth and dwelt among us. John 1:1-3 In the beginning was the Word, and the Word was with God, and the Word was God. He was with God in the beginning. Through Him all things were made; without Him nothing was made that has been made. John 1:14 The Word became flesh and made his dwelling among us. We have seen his glory, the glory of the One and Only, who came from the Father, full of grace and truth.

It's hard for me to see how there can be such widespread disbelief when all you have to do is open your eyes and witness the miracles that happen all around us.

Florida court sets an atheist holiday In Florida, an atheist created a case against the upcoming Easter and Passover holy days. He hired an attorney to bring a discrimination case against Christians, Jews and observances of their holy days. The argument was that it was unfair that atheists had no such recognized days. It was brought before a judge. After listening to the passionate presentation by the lawyer, the judge banged his gavel declaring, "Case dismissed!" The lawyer immediately stood objecting to the ruling saying "Your honor, how can you possibly dismiss this case? The Christians have Christmas, Easter and others The Jews have Passover, Yom Kippur and Hanukkah, yet my client and all other atheists have no such holidays. The judge leaned forward in his chair saying, "But you do. Your client, counsel, is woefully ignorant." The lawyer said "Your honor, we are unaware of any special observance or holiday for Atheists." The judge said, "The calendar says April 1st is April Fools Day. Psalm 14:1 states "The fool says in his heart, there is no God." Thus it is the opinion of this court, that if your client says there is no God, then he is a fool. Therefore, April 1st is his day. Court adjourned." I got a kick out of it because of the truth it holds; and because I gave my heart to Jesus Christ on April 1st 1990.

Don't be a fool! Open your eyes and see His wonders and realize that Jesus Christ died for bikers too! If we at Calvary Chapel MM can be of service e-mail me or call me at 954-448-1235.

BRUSSELS... AND THE RNC PANIC OF 2016

Brussels... Do you really need another reason to vote for Trump? Here's reality... if we don't stop these assholes they will try to kill us and in the end nobody will really give a shit about how "politically correct" we were.

This is war, it's about survival. Lawyers, courts, legal maneuvering, politically correct, and all that other

peacetime stuff are no longer on the table. Information gathering and intelligence are key to preventing future attacks. It's difficult to understand why anyone would be against enhanced interrogation of assholes like Salah Abdeslam from the Paris attack as after his arrest last week had he been subjected to a more aggressive environment it may have prevented Brussels. Personally, I'm all for hooking the son-of-a-bitch up to 120 and lighting him up. Hard to believe anyone who had a family member injured or killed in Paris or Brussels would not support that. But I'm among the xenophobic, not-politically correct, non-establishment, keep refugees the fu#k out of the country crowd so I suppose that helps explain why hooking red to positive and black to negative doesn't bother me in the case of this piece of shit or others that hid him out for the past 4 months.

Moving on to Republican Primaries... isn't it great to see establishment RATS that have been looting the People through failed policies for the past 50 years start to panic! Holy Shit!!!!... The People intend to elect Trump! What will we do... what will we do? They are actually going to vote for someone we didn't tell them they could vote for! Trump even said they might riot if we don't respect their votes at the convention. Even "Loser" Lindsey Graham, in an effort to stop Trump and keep his cushy government job is sounding like a liberal-piece-of-shit Democrat. Truthfully, if I were Cruz I don't think I would want his endorsement.

Speaking of endorsements; Mitt Romney. Mitt makes Benedict Arnold look like the Easter Bunny. One day he's supporting Kasich; next he stabs John in the back and jumps on the Felito Cruz wagon. Certainly helps shed light on the 2012 elections and why Obama was re-elected. Next, in final desperation to "Stop Trump", he will likely be supporting Burnie Sanders.

Also in this panic to "do something to stop Trump" this bunch of institutionalized political establishment losers are saying the media is at fault!

Now that is a real change. Establishment politicians have pretty much had the news media... at least Fox News and CNN, in their pockets from the get-go. Where have these stupid assholes been? The media has been trying to stop Trump since... like... last June! We have all read or seen almost every commentator that reports any kind of news anywhere accuse Trump of being racist, sexist, misogynist, xenophobic, ignorant on policy, encouraging violence and having bad hair. And yet the Bulldog keeps winning primaries with negative media and fact-checking placards of misleading, skewed numbers bouncing off like rubber bullets. Of course Trump has received disproportionate air time of rallies and speeches but he is also involved in endless interviews and takes on journalistic questions his opponents do not. Queen Hillary for instance, has gone around a 100 days without bothering to hold a news conference. And Trump continues to bitch about the press. Difficult to believe they are on his side...

Reality is the People... that's us the voters...

don't very much trust the media, and as hard as it is to accept we get to decide which candidates we like. Not the media and not the entrenched establishment. That's DEMOCRACY! That's the way it is supposed to be.

Even the Chinese are getting nervous about Trump. As reported by CNN... Beijing had downplayed any impact Trump could have on U.S.-China relations, saying it was a "disturbance." But, that has changed. China's state-owned Global Times condemned Trump as "big-mouthed" and "abusively forthright." Then went on to imply the Republican Party has lost control of Trump — who has now become the party's worst nightmare. Guess the threat of a President Trump coming after them for their crappy international business deals and currency manipulation has them running a little scared. And an adult film actress from a Cruz ad endorses Trump - Amy Lindsay announced endorsement of Trump after appearing in an ad for Ted Cruz that his campaign pulled off the air. Talk about support... everybody from billionaires to a porn star. Just about covers the entire population. Well, except for Utah which represents a curious outcome. Felito Cruz shares similarities with Nimrata Nikki Randhawa "AKA Nikki Haley" of South Carolina. Governor Haley is the daughter of immigrants from Amritsar District, Punjab, India. Both Cruz and Haley come from outside the American value system since they have no skin in the game in the way of family history or parents or grandparents sacrificed in various wars. Hard to understand why families dating back to 1700's and had four Brothers / Sisters injured badly in a terrorist attack would choose Cruz. Strange folk with a different set of values which may explain the Mormon War, Warren Jeffs line of thinking. However, folks in Arizona don't share that set of cultural values, likely because the illegal immigrant population has been less successful in exporting drugs, unemployables and violence to Utah.

So can Donald Trump be stopped short of the nomination? No, not without some sleazy maneuvering by members of the Republican Party and their lobbyists. Frankly Felito needs to dump the bullshit about winning the nomination and get on the ticket as VP so he doesn't become a footnote in some obscure textbook of the future.

Some thoughts on democracy. The government is now in the hands of special interests, lobbyists, and political action committees. This invisible empire, entrenched for about 50 years starting with the Jane Fonda, Hillary Clinton flower children, has been cleverly set up to reside above forms of democracy that once served and protected the People. Senate and congressional votes are now bought and sold like fresh fish in a street market serving only to increase wealth of politicians and their financial backers. Until control of currency manipulation by foreign governments and credit accountability is restored and recognized as governments most conspicuous and sacred responsibility, continued threat of social decline will play a significant part in the ongoing paper revolution now taking place. This is a People's revolution demanding change from failed policies of the past that have served to produce a 19 trillion dollar debt and unsustainable trade deficits with nearly every country external to the United States. The country and its

People cannot continue to support this insane path to certain destruction. As such the only chance is to implement change through the democratic process and that process has Donald "The Bulldog" Trump in the lead in delegate count.

As disturbing as that must seem to establishment Republicans and Democrats, that is the will of the People. And the WILL OF THE PEOPLE needs to be respected and "back-room shenanigans" or threats of violence currently being attempted by institutionalized establishment types or professional agitator street radicals needs to immediately stop and the law enforced otherwise there is no democracy and something other than a "paper revolution" is the likely outcome.

To become more informed regarding one possibility, I invite the reader to invest a small amount of time in reading 'Black Sun/White Sand' as it sets forth a possible scenario for the end of American life as we know it. Similarities between today's political atmosphere and that which existed at the time of the downfall of Rome are remarkable.

Keep the rubber side down. Charley Blackwolf.

Black Sun - White Sand is a novel that relates how terrorist activity could bring about the downfall of the United States and in doing so describes current social decline, economic inequity, government excess and the general denial by the public that it could ever happen here. The main character tries to tell, but no one will believe him. You see... he's a junkie! There is also plenty of drugs, sex, violence and nuclear explosions!

ABATE UPDATE

By "Frank T" Hammons, SE Chapter President

Email: pres@abatese.us

Since my last WOTR article, the ABATE Southeast Chapter has had one member injured and another killed in traffic accidents. Daniel "Airborne" Ortnor (States MC) was injured and is now on the mend. Glenn "Swede" Malmstrom was an active American Legion Post 222 rider and life member of ABATE; he succumbed to his injuries. Please keep both of those guys and their families in your prayers.

Each ABATE member has a \$4,000 Death and Dismemberment Insurance Policy as part of their membership dues. Please fill out the insurance beneficiary card which determines where the insurance payment goes. If something happens to you (God forbid) and you do not have a beneficiary listed, the money goes into probate for your estate, which will take longer to receive the money. If you need a new beneficiary card please contact our Membership Trustee T-Man 954-658-8281.

ABATE Legislation: This year ABATE did not have any success in the Florida State Legislature. The proposed \$300,000 ABATE Safety Money was hacked in the Senate before going to the Governor for signature (the Governor vetoed it last year). Additionally, the Vulnerable Road User's Bill (Stiffer Penalties) passed all committees but "died" on the table in the Senate, never getting a vote.

ABATE Dues Amendments: The State has asked the Chapters to consider three amendments for annual and life dues which were discussed at the March 30th meeting.

Paraphrased Amendment #1: \$20 annual and \$600 life membership; Chapters give the State Treasury \$10 for each annual and \$400 for life membership. Paraphrased Amendment #2: \$20 annual and \$150 life membership; Chapters give the State Treasury \$20 for each annual and \$150 for life

membership (all membership revenue goes to the State Treasury). Paraphrased Amendment #3: \$30 annual and \$300 life membership; Chapters give the State Treasury \$20 for each annual and \$300 for life membership. At the March Chapter meeting members in attendance voted unanimously in support for Amendment #3. Those of you who overpaid your annual dues should have received your \$10 refund by now, if not please contact T-Man or me.

ABATE Southeast Chapter Elections: A reminder that the Southeast Chapter elections for Executive Board and Trustee positions will begin with nominations in the months of April and May with the election taking place at the June meeting. Last year, we had difficulty filling the four required positions in order to continue as a Chapter; those positions are president, vice-president, secretary, and treasurer. If Chapter members are not willing to step-up, the State ABATE office will attempt to find within our Chapter's 500+ members four individuals willing to fill each of these positions. If unable to do so, the State will close the Chapter and the membership will become at-large members and the Chapter's assets will be returned to the State office. I encourage anyone wanting to be on the Executive Board or hold a Trustee position to speak-up, step-up, and run for a position.

ABATE Southeast Chapter members were out and about this past month visiting and supporting clubhouses and events. To name a few: Scurvy Few MC clubhouse; Mystic 7 MC Birthday Party; Glenn "Swede" Malmstrom's Celebration of Life - GBNF; US Military Vet Chp 1 MC Off-Annual; ALR Post 180 3rd Annual Bikes & BBQ; ABATE members Sheila and Past-SE ABATE Prez Johnny Rose's post-wedding celebration; Keltics MC Annual at JP Mulligans and the Black Pistons MC open house.

MY COSTA RICAN RETIREMENT

By Doob: DoobCR@gmail.com

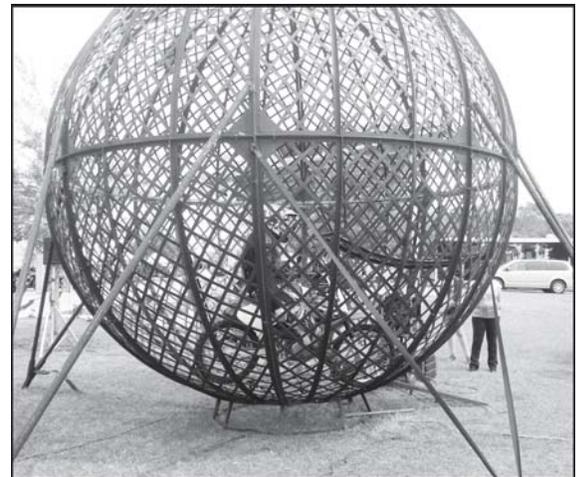

March started off with the Annual Convention of Motorcycle Riders of Costa Rica, held in the Pacific port town of Puntarenas. The city loves our spending money so the welcome mat was out for us. The only problem was the 10,000 or so 150cc Chinese bike riders who were all over like horseshit, weaving in and out, doing wheelies, and being a pain in the ass. Luckily our Club party was at a private Rock Club Complex on the water. A great Tribute Band performed and had us Rockin to the sounds.

Next week I was off to Florida and Daytona Bike Week. H/D fact sheets say 266,382 Harleys, including 62,407 Sportsters were sold worldwide in 2015. I bet the new Victory Octane 1200cc, 104 hp.

lowboy, similar to the Sporty in price, height, and weight, but whose engine is closely related to the V-Rod, will give Harley some good competition for sales. Maybe... but I love the Sporty 48.

Wasabi Salmon Burgers

- 2 tablespoon reduced sodium soy sauce
- 1 1/2 teaspoon wasabi powder
- 1/2 teaspoon honey
- 1 pound salmon fillet skinned
- 1 egg lightly beaten
- 2 tablespoon minced fresh ginger
- 1 teaspoon toasted sesame oil
- 3 scallions finally chopped

Whisk soy sauce, wasabi, and honey until smooth set aside.
 With a chef knife or a machete... chop salmon using quick even straight up and down motions.
 Do not rock the knife through the fish or it will turn mushy
 Continue chopping, rotating the knife, until you have a mass of roughly 1/4" pieces.
 Put in large bowl add scallion, egg, ginger, and oil... stir to combine
 Form mixture into 4 patties. The mixture will be moist and loose but holds together nicely once the first side is cooked.
 Coat large nonstick skillet with Pam and heat on med for 1 min, add patties and cook for 4 min, turn and cook until firm about 3 or 4 min
 Spoon the reserved wasabi glaze evenly over the burgers and cook for 20 seconds... eat immediately

day "them Germans" came to our hotel. From there we rode the Loop. Everybody enjoyed that scenic ride. After completing the Loop, the Iron Horse was our next stop. I could not help myself and I had a small portion of the steak tips, knowing that we were going to have lunch at Destination Daytona which was our next stop. Everybody had a great time. I am pretty sure that "them Germans" liked this watering hole the best. Bruce Rossmeyer's Destination Daytona was packed with vendors and people. We ended up having lunch at Houligan's. Our

cute waitress highly recommended their Wally Wings and my wife and I were very happy to have followed her lead. These wings were the best we have ever had and I made it a point to put eating them on my to-do list while being at Destination Daytona. We stayed at the hotel once more. It was just a lot spending time with our friends. We left the following day while "them Germans" stayed for the

rest of the week.

The Pavilion was big enough to accommodate the 150 guests. Toolman, from Soldiers for Jesus MC, did a really good job with the ceremony. this great party. Congratulations again to you both.

The following day (03/20) I attended the Keltics MC Annual St. Patty's Day Blow-Out which was held JP Mulligans. I was surprised by the slow start of this party. There was hardly anybody there until 1:30 p.m. when all the Clubs started to arrive and within no time, the parking lot was filled with a ton of bikes and the bar was filled with lots of thirsty bikers. Food & drink specials, door prizes, 50/50, vendors and a stellar performance by Estimated Prophet were the key ingredients for an awesome party. For those of you who missed it, shame on you.

I think the higher ups are starting to warm up to me at the Iron Butt Association (IBA). They always have the start of the riding year in February at their annual Meeting/ Banquet up in Jacksonville with a few Long Distance Endurance rides for the attendees. They have the normal ride which is 1,000 miles in 24 hrs or 1,500 in 24 hrs. I took on the 1K in 24 hrs called the Plane Crazy 1000 because I was making a small movie of the stops so I needed more time. Thursday morning at 5:45 AM a group of approximately 60 guys & gals left the Ramada Inn for the challenge.

Just like every year I received a flag with a number on it. Every participant had a different number assigned to their name. You travel to the first point of interest (POI), get off your bike, set up your flag were the number is visible, and you take a picture of the POI. That way they know you didn't cheat. Then you move on to the next POI doing the same routine. You have 24 hours to do the run with the last stop being a gas station in Jacksonville giving you the date & time on the receipt proving you made it within 24 hours. You then catch up on some sleep, and around 2 PM you go into the conference hall to certify your run with one of the IBA officials that are normally a volunteer.

This year I rode through Georgia, Alabama, entering Florida through the Panhandle southbound, down to Tampa, back east through Orlando, took a left turn north in Deland, and the final destination was the Ramada Inn in Jacksonville. Of course I was the last one to leave for the run, but I'm safe to say that I completed it in 19.5 hours. This happens to be one of my better times from the previous IBA runs where I barely made it due to my bike breaking down.

The run was going great, I was getting my pictures and all the POI's, until I got near the Alabama Georgia borderline. I was warned but I ignored the advice taking the chance. The road, Highway 118 at Smithville, GA, was not passable. I was supposed to drive through Hwy

118 to get to Alabama but the bridge was out. I mean the BRIDGE WAS OUT - a big hole in the ground with a river flowing preventing passage. It was a strange place to be in the middle of nowhere. It took me a 1.5 hours to go around that detour to get to my next POI. When I got to Alabama there was his beautiful helicopter on a stick at one of its border rest

stops. The pic was a USA Bell UH-1 Iroquois 'Huey on a Stick.' When you entered the Alabama Welcome center there was a sign that said Sweet home Alabama. I guess they took from the Lynrd Skynyrd song.

I really enjoyed the Plane Crazy 1000 due to all the military planes that I got to see. Some of the planes and places that I visited were: Pinellas Park, FL – USAF F-16A Fighting Falcon (aka 'Viper'); Bartow, FL Airport (BOW) – USAF T-37 Tweet; Orlando, FL Orlando Intl Airport (MCO) – USAF B-52D Stratofortress; Orlando Executive Airport (ORL), FL – USAF F-4D Phantom II; Sanford Memorial Park, FL – USAF F-15 Eagle; Deland Naval Air Station (DED) Museum, FL – USN F-14 Tomcat; and the Jacksonville, FL Cecil Field (VQQ) – F-18C Hornet.

At the IBA annual meeting every Friday they hold a banquet where all your long-distance riding peers are together in one room eating and drinking. Normally these guys are Gold Wing guys or BMW riders. This year there was a lot of Harley bikers in the event. In fact, I saw approximately five Hoka Hey guys doing the run. They gave us a certificate for completing the Plane Crazy

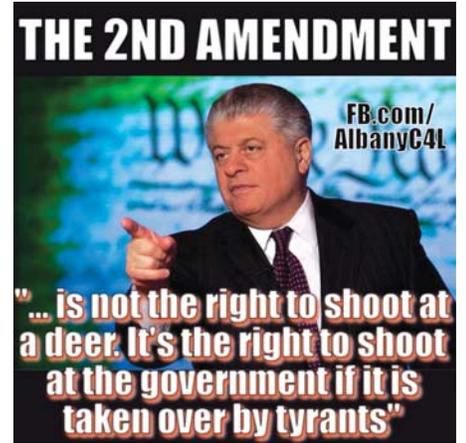

1000. Michael Kneebone, the president of the IBA, started speaking at the banquet as he always does. He had different people stand up if they completed the runs that he mentioned and people would applaud. These were different extreme or long distance runs. The IBA has about 400+ runs that you can self document and hand in for a certification. At the end of the banquet Kneebone started talking about my Pan American run that I successfully completed this past summer. He spoke about me for 15 minutes, and then he called me up to give me a certificate certifying that I actually completed the run. The whole room stood up applauding and whistling and sharing. I have him recorded where the IBA investigated my ride and NO ONE ON RECORD – No one - they could not find anyone that completed the run from Tierra Del Fuego to Prudhoe Bay, Alaska on a Harley-Davidson. Still waiting for Harley to call me... O'well. It was a feel good moment because now I can submit that certification to the Guinness book of world records.

The next day I went down to the 75th anniversary bike week in Daytona Beach, and met up with some old and new friends on Main Street. I saw my good friend Johnny Rock & Ride who always comes down and hangs out with me at my tent in Markham Park during the SFPC Toys in the Sun Run. I ran into a lot of brothers from South Florida. Main Street was packed with

police officers chasing down and scolding any biker that revved their engines too loud. If you tried to show your tits the police would take you to jail in handcuffs, but besides that I had a great time with no loud pipes tickets to battle.

I made it back home Sunday night without any problems on the road. A good friend of mine was hit causing his motorcycle to veer off into the grass where he wiped out. Unfortunately he's going to need an operation

to attach a muscle back to the bone. Not to worry I'm taking good care of him. All week long I was working and chomping at the bit for Saturday when the American Legion - Legion Riders for Post 180 had their annual block party. The weather report leading up to the event said that there would be 100% heavy rain. Just like the 2015 SFPC Toys in the Sun Run - God gave us a beautiful hot sunny day with the exception of a few showers that lasted no more than five minutes each. I think a few the bro's that attended needed the shower to smell a little better. Just saying ya know!

The director of the Legion riders for Post 180, Manny "Manster" Ayala, and his Riders did an awesome job in organizing the well oiled event. There were many vendors that came giving attendees a choice of goods to purchase. 90-pounds of crawfish was shipped from Louisiana just for this party. For \$10 a plate you got a shit load of crawfish, sausage, potatoes, and veggies. One of the Post's Cajun members spiced up those baby lobsters into a delicious boil.

The Tell-Um Band rocked the party hard with Becca singing better than Janis Joplin. It was funny because their band is called the "Tell-Um Band," but when Joe from Hired Gunz introduced them it sounded as if he was introducing the band as, THE TALABAN! LMFAO! Those members of the band were harassed for the rest of the day for being the terrorists of rock. Hammer, Bondo, and other members of the Der Krieger MC came out to eat crawfish and listen to the good music played by a local group of terrorists (jus kidding ya'll). I was learning to eat this Crawfish things. Got good

advice from hammer who ate two huge plates by himself. The man loves his spicy crawfish!

There were so many people at this event that I was looking around, and I knew them all. It occurred to me as it always does, as it should occur to you if you attend many events, that we have the best biker community in all of the United States of America. Every weekend there is a biker event, a run, an annual, a poker run, an other riding activities that sometimes we forget how spoiled we are. There are other places in America where people would give their left arm to take our place. We are truly a family in South Florida!

I want to remind everybody to go to The States MC 50th Annual on Sunday, April 3, 2016 starting at noon. The States MC is the oldest MC in Broward County. These guys always have a good vibe and awesome attitudes at their events. Go check them out.

SE ABATE on May 29th, starting at noon, is having its 36th Annual Memorial Day bash. If you are not a member of ABATE you can attend this event and join up to help protect BIKER RIGHTS. (read Frank t's

Another event to be on the lookout for is the 2016 Biker Political Forum that will be held on a Thursday night sometime in June. If you went to the last one you know what a good time we had with Beacon challenging Broward Sheriff Israel on Gun Rights! We will have the local Broward County candidates come in and speak to us. They will have five minutes (or so) to convince us to vote for them. They will then have five minutes (or so) of question & answer by those in the biker community. I know many of you are mad at our elected officials and those running our government. Here is your chance to ask them questions face-to-face in an environment where they are asking for your vote. There will be individuals running for the offices of judge, state representatives, state senators, U.S. Congress, County commissioners, clerk of the court's, and many other elected offices. Come on out to let these candidates know we are a voting block to be reckoned with! (See the flyer next issue)

Until next month, please ride safe and look out for cager's driving crazy on our roads. I worry about you all while you're on the road. This month there seems to be an increase of injured bikers coming through my law firm's door. The tourists are in town, but until they leave please ride keeping your eyes in the back of your head. Peace!

On March 11th headed up to Daytona Bike Week. It was my first one in 12 years. I wasn't there 3 hours and ended up at the bar called OB's where there were girls fighting naked in coleslaw. Now that's not a bad way to start the night

off. After cleaning off some coleslaw, I walked down Main Street and went over to the Hilton where the "Cartel Baggers" were having a little get-together. I kinda remember most of the night...

The next day

me, my brother Hip Hop, Steve, and the Chicken Man hung out and ate lunch. We watched Hip Hop stick his hand in an angry alligator's mouth. While I was there I ran into an old friend & brother, singer and songwriter David Allen Coe, who I haven't seen in a long time since I was in Milwaukee. It

Well, it was a long weekend but I had a good time. I can't wait for Daytona Bike Week 2017.

I made sure that I rested up during the week because the following weekend was St.

Patrick's Day and Pedro's birthday. Me, Pedro, and a couple of Brothers stopped off at a little patio bar, the place was packed with lot of good looking women. We hung out for a while and

On Sunday the 20th, Catherine and I headed over to the Keltic MC's Annual St. Patty's Day Blow-Out at JP Mulligans. It was a great turnout. A ton of people

showed up to celebrate. There was a good band, great food and nice weather. The Keltics MC did a great job with this event.

Well here it is March 2016 and the POS obama is still President and continues the ruining of our Country. My sympathies to all who died and to their families in the Brussels attacks. We all know who shoulders the blame for these attacks. I firmly believe this will happen here in our Country in the future. I pray I'm wrong but...

Kathy and I rode out Sunday February 28th to meet up with a few brothers and sisters here in WPB and then on to Treasure Coast Harley-Davidson to pick up a few more. Then we headed out to Hogg Wild at Archie's up in Ft. Pierce. The weather was beautiful. Chilly enough to get to wear leather but not enough to get cold.

When we got there we found around 1000 bikes lined up on A1A and the two parking lots and at least 1000 bikers. Nothing but bikes and bikers would be found at Archie's. Had a great meal and listened to some good music, watched the tattoo contests, which Kathy tried to get me to enter, I didn't, y'all know me I'm shy... LOL Damn, we missed the Wet T-Shirt contest I'm sorry to say. Kathy probably wouldn't have let me watch it anyway. (LMAO) Kathy and I had an outstanding time and it was a privilege riding with great friends again. All in all it was an outstanding day for all of us I believe. Thanks to all who rode with us.

On March 5th, Ed, Kathy and I headed out to J & S Fish Camp at Lake Okeechobee at 12:20pm, we were waiting to see if anyone else showed up to ride with us but no one did (sad). We were in no hurry so we stopped on the way to Indiantown for a coke and then on the way to Port Myaca where we got to watch everyone there catching crappie and a

couple of largemouth bass. The Pelicans were catching much more than the fisherman. Was another awesome day in Florida to be out riding, weather was just right, low 70's.

We had hamburgers and hot dogs at J & S and we had the pleasure of meeting a dog named Gator (black and white pit bull) who was running around by himself, who promptly ate a bag of Kathy's BBQ potato chips... the whole bag! Gator is a very well behaved and polite Pit and belongs to a guy who lives at J & S.

A little history on the "Big O": Lake O is the largest lake in Florida and the 7th largest inland lake in the United States and the second largest freshwater lake (the largest being Lake Michigan) contained entirely within the contiguous 48 states.

Lake Okeechobee covers 730 square miles, approximately half the size of the state of Rhode Island, and is exceptionally shallow for a lake of its size, with an average depth of only 9 feet. The lake is divided between Glades, Okeechobee, Martin, Palm Beach, and Hendry counties. All five counties meet at one point near the center of the lake.

We had planned to attend a number of events in March but on the 8th of March both Kathy and I fell sick with what we thought was the flu but turned out to be an Upper Respiratory Infection. For the next 2 week we were getting our asses kicked by this. Even now we're still not back to a 100%. So I apologize that there's not more to report on.

We'll see you down the road, be safe.

“Do not try to live forever, you will not succeed.” ...George Bernard Shaw

With the recent death of my Uncle, I couldn't help but realize that it was my generation that was holding the “next in line” ticket for the pearly gates (for most of us anyway). Well, it got me to thinking about what I wanted to do and what I wanted to accomplish before I leave this

world, and that my friends is what inspired this month's column titled... The Bucket List!

It was at the Keltics MC Annual St. Patty's Day Blow-Out that I had the perfect opportunity to find out from the biker community what was first on their bucket list. I just want you to know that I saved my favorite for last. Below are the responses... Enjoy!

I have started getting more and more involved with doing outside festivals. At the end of February we at A1 Promotions, assisted by Andrew Singer from World Wide Talent, were asked to help with the promotions,

pictures and video of the 27th Annual Airboat Show & Festival at Bergeron Rodeo Grounds in Davie on March 5th, with music by Moonshine, the All American Band with special guest Taylor Loren, Hired Gunz & Sucker

Punch. Over 200 Airboats and many special attractions showed what our South Florida culture is about. We were glad we were a part of it.

Hired Gunz

You always know when Spring is around the corner. On March 17th, St Patty's Day, I hit three venues! Rookie's Ale House, Murphy's Law and Cagney's. What a great turn out at all three venues.

The next evening I went to the Wings of Gold

MC's St Patty's Day Party. Always great friends and great food. While there I was amazed at the Makeup Body Paint artwork by Holly Hudson, who painted just about everyone's face. From there we went to Cagney's for their Annual St Patty's

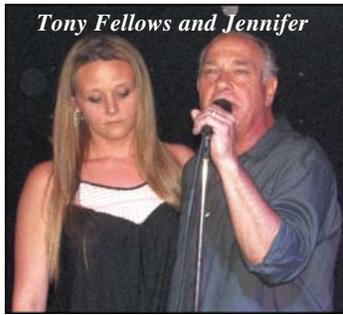

No more drumstick twirling?"

Soulicide at Cagney's

Day Party with music by Soulicide.

I want to mention that a local musician and friend, Anthony Fallows (aka Tony Fellows) from The Storm & Hired Gunz lost his home in a fire. so Big Dawgs, Jimmy Piro, Joe Byerley, Jimi Robinette & us with A1 Promotions put together a special jam with many of South Florida's musicians. We have had and may have fund raising events for Tony. He and his family lost everything. Contact

me for donation information. And a great time to see me will be at Rookies Ale House every Tuesday night where I will be bartending. Stop by, say hi, have a drink and drop off a check made out to "Tony Fellows", to help him and his family in his time of need!

On Sunday March 21st I went to the Keltic MC's St. Patty's Day Blow-Out at JP Mulligans. The band was

"Estimated Prophet" who plays a mix of country, rock & Southern rock. There were 350-400 in attendance. And yes... it was another great Keltic MC "Blow-Out"!

I have 2 great bands to tell you about this month: The first one is "Ricky Valido", who is a Florida born singer, songwriter and performer. Ricky was born and raised in Hialeah. At 23, Ricky has compiled

Musicians in support of Tony Fellows

a resume offering promise for future stardom in country music. As a singer, songwriter, guitarist and dynamic performer, Ricky and his band have performed primarily in Florida. Blessed

with a unique voice, Ricky has captivated fans from all parts of the country. Ricky best describes his music as an experimental country music journey. He will be releasing his highly anticipated debut album later this year. Many of his fans and followers are eagerly awaiting the self-produced album release. I am very excited to be working with Ricky and his band. Ricky has a great fan base and we are hoping to build his fan base worldwide! Look for

Ricky

Ricky Valido playing at a venue by you.

The 2nd band to keep an eye on is "JL Fulks". Born Jeffrey Lynn Fulks Jr, Jeff is a fabulous blues artist and at the age of 25 has taken South Florida and the country by storm with his 3 piece band featuring Jeff on lead guitar & vocals, Ken Burgner - bass & Ian Jones on drums. They have toured with national and international acts everywhere! Look for JL Fulks coming to a venue near you.

Here are a few events coming in April: Saturday April 9th is Alligator Ron's 2nd Annual WingsFest at Bergeron Rodeo Grounds in Davie

the Max Dubose Band. I never could get an answer about that but in any case they were very good and played a good mix of 60's, 70's & 80's, and some newer stuff. They had people dancing all afternoon and as the booze kicked in the dance floor got a lot more crowded. The Vets also had door prizes and their Stand Down Raffle with 1st place being an AR15 and M9 Beretta. I was feeling lucky so I got 2, \$10 tickets. The drawing will be held on May 28th so you have time to buy more tickets. All proceeds benefit the US Military Vets Stand Down 501(c)3 Charity. We stayed until just before sunset. It was a real nice party.

A few days later we stopped by the Wings of Gold MC Davie clubhouse for their St Patty's day Italian dinner party. There were a lot of people having a good time and some were getting their faces painted. Kent from Soulicide used up all the paint so everyone went home. (Relax Karen, I'm just kidding...) Most everyone stayed until their bedtime (well after 9PM) and some even stayed longer because their truck got stuck in the sand and needed a tow. (We were told to park there... those Wogger's will do anything to keep you at their clubhouse... right Ed???)

On March 20th we rode out to JP Mulligans in Pembroke Pines for the Keltic MC's St. Patty's Day Blow-Out! We got there at about the same time as everyone else. And by 2PM the party was in full swing. There were some vendors, a bar and BBQ were set up outside. A big tent was set up in the parking lot with plenty of tables and chairs right in front of a large stage where the band, "Estimated Prophet" were set up and playing. They played almost non-stop and were very good. I heard that one of the guitar players is a trauma surgeon at a local hospital. I figure he needs the money from the hospital... I witnessed the band getting paid and after dividing that up between the 6 musicians they were lucky to pay their bar tab. And it was great to see Keltic clubmember John (and Andy) up and moving pretty good after his nasty motorcycle accident in January. You got really lucky... I hope you bought a few Lotto tickets...

So the party went on for a few more hours then just as fast as everyone arrived the parking lot emptied out with many people riding over to the Keltics clubhouse to continue the party. Always a great time at any Keltics event... especially those Crowdaddy dinners in the olden days...

On a sad note, "FPL Bob" Hellowell (from Dania Beach) died last month after suffering 3 heart attacks in one day. I knew Bob for over 25 years and he was a hell of a nice guy. He was a member of the Fly~In Wheels MC at the time of his death and had been a member of the Wings of Gold MC and a founding member and "first boss" of the Keltics MC. His funeral took place on Saturday, March 26th at the McWhite's Funeral Home in Oakland Park. Over 150 people were in

Woo's View's

By Willie Woo: WillieWoo69@hotmail.com

Don't say we didn't warn you after reading his articles.

I've got some good news and some bad news. The good news is that I won five million dollars in the Lotto! The bad news is that I won't be writing for wheels on the road any more so this is my last article. Here it is...

I'm redoing my 1999 Chevy S-10. I've done a lot of body work to the cab and put a new bumper and

valance under the bumper. A new front left fender, new lights and new tires. I haven't done anything to the bed. It's in really sorry shape. I'm in the process of finding a used bed in much better shape with tailgate. The cost doesn't matter anymore, I just love doing the bodywork.

The bow tie (Chevy emblem) on the grille was really in bad shape. The sun had long ago faded it out and it was weathered and had some cracks in it from where it had been hit at some time. Just for shits and giggles I thought I'd play with it and see what I could do to save it. It's a small piece so I really didn't want to crank up the compressor, dirty the touch up gun several times and waste a bunch of lacquer thinner doing the clean up after each operation. In case you didn't know, I started painting many years ago using foo-foo (spray) can paint. Back then you could get all the custom colors as well as metal flake in spray cans. As a matter of fact, Metallflake was the brand name of the custom spray can paints. They also made custom paints in quart cans for professional refinishing. Anyway, I learned how to use foo foo cans pretty good back then. Fast forward to the Chevy bowtie. I had a spray can of self etching primer from working on the cab of the S-10. I also has some hi build primer from the same project. I brought a can of spray gold and spray clear acrylic at Walmart in their crafts section. I got gold fine flake in a small salt shaker type package. First thing I did was degrease the bow tie with some precleano. Then I sanded it down with 100 grit dry sandpaper. I cleaned it again and sprayed a couple of coats of the self etching primer and let it dry over nite. Don't be in a hurry where dry times are concerned or you will screw it up and have to start from square one all over. The next day I scuffed the self etch with a scuff pad, cleaned it again and shot 3 medium wet coats of the high build primer on it and let that too dry over night. The next day I wet sanded the high build primer with 500 grit wet paper till it was smooth. I cleaned it again and shot 3 medium wet coats of gold on it letting each coat except the last to set up for about 10-15 minutes. When I shot the last coat of gold on, while it was still wet, I sprinkled the gold flake on it. When it was completely covered with the flake, I let it set about 15 minutes and gently blew the excess flake off. As soon as the flake was off, I sprayed 4 coats of the clear acrylic over the flake letting about 10 minutes between coats and put it up to dry. The next day, the clear was hard, but had a rough texture to it as I knew it would. I gently wet sanded it with the 500 again and when that was finished and the bow tie was dry, I again shot 4 more medium wet coats on it. Again, next day when it was dry, I wet sanded it with the 500 till it was smooth. It was a lot smoother by now. Another 4 coats of clear and when that was dry, a wet sanding with 1500 grit paper followed by another sanding with 2000 grit. By now it was glass smooth but milky from the sanding. I finished it off by using fine buffing compound with a foam pad and the glazed it with glaze and another foam pad for glazing! It looks a mile deep and shines like glass! Also, I'll bet it's the only one like it! (See page 44 for the final piece) Remember, the spray can method is only good for small pieces. Large ones still need to be done (same way) with spray guns.

I'm out of room so I'll tell you about my fur babies next month. Oh... April Fool! I didn't hit the Lotto.. damn it! Your Friend, Uncle Willie

CHUCK ON THE RIGHT SIDE

Chuck Lehmann: ChucksRight@gmail.com

Who are the Real Fascists?

The word "Fascist" (a/k/a Nazi) is being thrown around willy-nilly today in describing Donald Trump. Is destroying the candidacy of Donald Trump worth all this scathing criticism and vile denigration of his person who has professed his love and

loyalty for America? Yes, sometimes the rhetoric of Donald Trump is over the top, and some of his views are not to your liking, but he's an American and he has the right to say what he feels about America and its policies and its leaders as do all of us. By expressing his views, as is his right, should that call for others to try to shut him down by calling him a Fascist, Nazi, or a Mussolini or Hitler?

Trump holds a rally for his supporters, and in the course of giving his speech, he gets interrupted by some groups of organized radical loons who want to shut him down, thereby violating his free speech rights. Trump sometimes responds in an inarticulate manner in condemning their disrupting actions, and then the Democrats and some sore loser Republicans proclaim that Trump is the cause of these disruptions. Oh yeah! Here's the post on Facebook by that far-left progressive organization Move On.Org that lays out in detail what they planned to do at the Trump rally in Chicago. This post tells you who is responsible for these assaults on Trumps "Free Speech". And I quote: "Stand with Immigrants, Muslims, and People of Color! Shut down White Supremacy! Spread the word, organize everyone and get them to this very important

protest.

Everywhere Trump goes he and his racist mob must be shut down by the people". In addition to Move On.Org, other radical organizations and persons who complemented them in the disruption

were LaRaza, Black Lives Matter, George Soros, Bill Ayers (former Weather Underground terrorist), and other Immigrant Rights groups. So much for spontaneity on the part of the protesters.

Have you noticed that most all this chaos is coming from the left-side of the political spectrum (mostly all Democrats) and not from the right side (mostly all Republicans)? This is a continuation over the past decade or so where conservative speakers have been shouted down or have been outright barred from speaking at many of the universities around the country. This

academic radicalism has spilled over to the general public and has continued up till today at the Donald Trump rallies. Of course, everyone has a right to free speech, but everyone's free speech rights doesn't apply when they deprive others of their free speech rights. That's a phenomenon of the liberals (a/k/a Progressives and Far-left groups) who use that precious right (handed down by our founders) guaranteeing us all of free speech as enumerated in the 1st Amendment of our Constitution.

I have recently attended a Trump rally and have seen these anarchists in action, and

when they started acting up to disrupt, the local police and Secret Service, acted post haste in removing them to a safe place away from the rally, without incident or violence. Most likely, this will be repeated at future events as long as these fringe groups continue to announce their intentions of creating havoc in trying to shut or shout down Trump's speeches.

These radical groups have no place in a free country like ours. These disrupters are patently anti-American and a cancer on our society. They are the real fascists and not Donald Trump and his followers.

WITH CHUCK

I would like to start off by congratulating Freight Train Kane and Nicki Rocks on their marriage. I was fortunate enough to have the opportunity to capture this moment for the both of them. It was a very exciting and

event-filled night for all who attended.

Everyone ended up at O'Malleys to finish off the festivities. I want to take a moment and wish them nothing but the best and life full of happiness and health!

The first stop of the month for me was an excellent show I was able to shoot, held at The Amp in Pompano Beach. Headlining was The Charlie Daniels Band with special guest, The Marshall Tucker Band. It was great to see that everyone who performed still has what it takes to get the entire crowd on their feet. They played everyone's favorites and it was a jam-packed house for the entire show. Charlie Daniels still has it and rocked the house!

Now for the racing: since the NHRA's Pro Winter Warm-Up that used to be held at Palm Beach International Raceway has been cancelled, all the teams now use Wild Horse Pass Raceway in Phoenix, Arizona. The Pro Winter Warm-Up used to be the kickstart for the NHRA top fuels teams. They would all make the trip south, out of the cold, to South Florida to help get prepared for the new season. In lieu of the NHRA top fuel test session, Palm Beach International Raceway brought in the RPM (Real Pro Mod Association) to put on a show for all of South Florida. They used this event as a warm-up for the first national event for pro mods, held at the NHRA Gatornationals in Gainesville. The week leading up to the race at Palm Beach a lot of teams used that time for private test sessions. I had the honor of being able to attend this private test session and shoot some awesome pictures. The race itself was a two day event, Saturday and Sunday, which drew an enormous crowd both days. They were paying out a purse of \$20,000 to the winner so everyone had their race cars set on kill. The entire week went very smooth except for one accident that happened to Jim Bell from Alberta, Canada, while driving his twin-turboed powered Mustang. His parachutes didn't deploy correctly and it caused him to hit the wall. He walked away unharmed and that is the main thing. The car was damaged but cars

can be replaced, people can't. The event came to a conclusion with Steven Whitely and his supercharged Cadillac CTS-V taking home the winning purse.

My last stop for the month was the biggest NHRA race in the state of Florida, the NHRA Gatornationals held at Gainesville Raceway. This is the biggest of the big and the only NHRA national event that rolls into Florida. All the professional top fuel and funny car teams were in the house battling it out to take home the "Wally". This track is nicknamed "The Swamp" due it being in Gainesville and the fact that this race is notorious for getting rained out. Having a race in Florida in March is hard to pull off but each year the NHRA finds a way and this year was no different. It rained Wednesday, Thursday, Friday and Saturday but the NHRA still was able to pull off 4 rounds of nitro qualifying and all the eliminations on Sunday. There were a total of 32 nitro-breathing cars on the property, 16 Top Fuel Dragsters and 16 Nitro Funny Cars.

Richie Crampton, the pilot of the Lucas Oil Top Fuel Dragster, was the number one qualifier with a blistering 3.69 at almost 330 mph to the 1000' mark. In Nitro Funny Car, Jack Beckman was the man on top setting both ends of the NHRA national record with a 3.87 run at almost 330 mph as well! The first round match up puts the number 1 qualifier against the number 16 qualifier, the quickest versus the least quickest. In Top Fuel that put Richie Crampton up against the 85 year old, Chris "The Greek" Karamesines. The Greek has been drag racing more than a lot of us have been alive, and yes even some of us old timers. This guy has been behind the wheel over 60 years and is still out there giving everyone hell. As the tree dropped for first round Richie made it out about 15 feet and then he smoked the tires. The Greek pulled away and never looked back running just over 4 second at almost 300 mph for the win! It is always great to see the Greek go out there and kick ass. To top off the great weekend of racing, Brittany Force, daughter of

legendary Funny Car pilot John Force, pulled off her first career victory. It was great to see Brittany pull off a win, it was long overdue and well deserved. With Leah Pritchett winning the last national event held in Phoenix, this was the first time since 1980 that the NHRA had back-to-back female national event winners. In Nitro Funny Car, hometown hero David Richards debuted a new car hailing the Prestige Corporate Headquarters sponsorship. They are from Wellington, FL and are the only current NHRA Nitro Funny Car in competition. With a new car comes working the bugs out. David qualified 15 and raced

Courtney Force first round, the other daughter of John Force. Richards fell to C. Force first round but stuck with it in case there was any slip up, he would of taken the victory. This team has invested a lot of time and money into their program and are going to be a small powerhouse and thorn in the side of many big teams in the near future. The weekend came to an end with everyone going home to their families and it was another successful Gators.

Until next time guys, Stay safe.

attendance. And after the viewing and service everyone mounted up behind the Motorcycle Hearse for a police escorted ride to a few locations around the city that Bob loved. Both Sharon and myself liked Bob very much and I know that he had a lot of friends who will all miss him. GBNF... "FPL Bob"

At press time I was informed that Sky (from the Trap) was in hospice at Hollywood Memorial South and the prognosis was not good. Sky has been fighting cancer for almost 2 years and although he had been doing better he relapsed. He has many friends from his years at the Trap in North Miami. I don't know what else to say at this time other than miracles can and do happen... so maybe one will happen for Sky. He deserves it.

On that note I want to remind everyone to look at page 33 for the upcoming events as well as each ad. A lot of bars and shops do hold events and bike nights so there is always something happening down here in South Florida. On April 3rd the States MC is holding their 50th Anniversary Party at their clubhouse. April 9th is the Mystic Seven MC party at their clubhouse, the Outcast MC is holding their party on the 16th but unfortunately they never sent a flyer but it may be at their Oakland Park clubhouse. Palm Beach Harley is holding their Chili Cook-Off & Poker Run on April 10th and Cagney's House of Rock is holding their 8th Anniversary Party the same day at the bar. Freddy's March Madness Vets and Pets Run is on March 17th which looks to be a very big event. All these events have flyers or are listed in their ads. (Except Outcast MC as mentioned) These and other event flyers are in this issue. See page 10 and 33 for details.

down to the wire as far as WOTR staying in print until the end of this year. Just "Google" how many magazines and newspapers have folded just the last 2 or 3 years. Print media is in trouble with a lot of people using the internet, Facebook, Twitter and other social media to get their information. I have been able to keep afloat because many bikers do not like or want to use computers to get their info or to see what bar is doing what and what band is playing where.
